

Georgios Lazaridis

Full-Stack Web Developer

Email: glazari27@gmail.com | Phone: +48500077957

Date of birth: 27.02.1995

Location: Wrocław, Poland

Professional Summary

Full-stack web developer with a Fine Arts background, combining product thinking, visual design, and engineering to build scalable digital experiences. I deliver user-focused applications across SaaS, content, e-commerce, and internal tooling using React.js, Next.js, Gatsby.js, TypeScript, Node.js, WordPress, PHP, and Python. Current work includes products such as hex-to-rgb.com, shroom4you.com, and AI-led concepts like Sprout & Spore. My work emphasizes performance, SEO, accessibility, automation, and maintainable delivery pipelines while taking products from concept to launch with strong ownership.

Experience

Founder & Solo Developer — hex-to-rgb.com

Remote | 2023 – Present

- Conceived, designed, and built a full-service color conversion platform serving 30k+ monthly active users.
- Engineered advanced conversion flows across HEX, RGB, HSL, CMYK, and related color spaces.
- Architected the product with React, TypeScript, Vite, and Firebase, covering UX, analytics, authentication, and deployment.
- Owned the full product lifecycle from research and interface design to iteration and growth.

WordPress Developer — Świeża Strona

Wrocław / Hybrid | Jun 2024 – Jun 2025

- Designed and developed custom WordPress plugins, integrations and themes.
- Delivered over 20 responsive, SEO-optimized websites, including e-commerce projects, with mobile-first execution.
- Built a Next.js helpdesk platform with real-time updates and multiple authentication methods.
- Implemented Python and shell-based automations for internal operations and data analysis.

Full-Stack Developer — Shroom Drink

Wrocław / Remote | Aug 2023 – Aug 2025

- Developed the headless WordPress and Gatsby.js foundation behind shroom4you.com using GraphQL for scalable content delivery.
- Optimized data flow, caching, and queries for faster storefront performance and easier editorial workflows.
- Introduced automation flows to streamline product and content management.
- Delivered a maintainable multilingual architecture supporting long-term growth.

Full-Stack Developer — Art Open

Wrocław / Remote | Jun 2020 – Present

- Led design, development, and deployment of 30+ scalable, data-driven web applications and digital brand platforms.
- Architected modern front-end and back-end solutions with focus on SSR/SSG and long-term maintainability.
- Integrated custom CMS layers, APIs, and third-party services while maintaining performance and security.
- Supported delivery workflows using Git, GCP, and Netlify.

Freelance Web Developer & Designer — Self-employed

Remote | Mar 2018 – Present

- Delivered high-impact client projects and e-commerce platforms from discovery through launch.

- Developed custom WordPress plugins, themes, and REST/GraphQL integrations.
- Applied performance techniques including code-splitting, lazy loading, and caching.
- Delivered UX-focused design and consultation with Figma prototypes.
