

Georgios Lazaridis

Full-Stack Web Developer

Email: glazari27@gmail.com | Phone: +48 500 077 957

Date of birth: 27.02.1995

Location: Wrocław, Poland

Professional Summary

Full-stack web developer with a Fine Arts background, combining product thinking, visual design, and engineering to build scalable digital experiences. I create user-focused applications across SaaS, content, e-commerce, and internal tooling using React, Next.js, TypeScript, Node.js, WordPress, and modern cloud platforms. My work consistently emphasizes performance, SEO, accessibility, and maintainable delivery pipelines while moving projects from concept to launch with strong ownership.

Experience

Founder & Solo Developer — hex-to-rgb.com

Remote | 2023 – Present

- Conceived, designed, and single-handedly built a full-service color conversion platform serving 30k+ monthly active users.
- Engineered advanced color conversion logic across HEX, RGB, HSL, CMYK, and related color spaces.
- Architected the platform with React, TypeScript, Vite, and Firebase, covering product UX, analytics, authentication, and deployment.
- Own the full product lifecycle from research and interface design to iterative improvements and growth.

WordPress Developer — Świeża Strona

Wrocław / Hybrid | Jun 2024 – Jun 2025

- Designed and developed custom WordPress plugins, integrations and themes.
- Delivered over 20 responsive, SEO-optimized websites with mobile-first execution for service and e-commerce brands.
- Built a Next.js helpdesk platform with real-time updates and multiple authentication methods.
- Implemented Python and shell-based automations for internal operations and data analysis.

Full-Stack Developer — Shroom Drink

Wrocław / Remote | Aug 2023 – Aug 2025

- Developed the headless WordPress and Gatsby.js foundation behind shroom4you.com using GraphQL for scalable content delivery.
- Optimized data flow, caching, and queries for faster storefront performance and easier editorial workflows.
- Introduced automation flows that streamlined product and content management across teams.
- Delivered a maintainable multilingual architecture ready for growth.

Full-Stack Developer — Art Open

Wrocław / Remote | Jun 2020 – Present

- Led design, development, and deployment of 30+ scalable, data-driven web applications and digital brand platforms.
- Architected modern front-end and back-end solutions with a strong focus on SSR, SSG, and long-term maintainability.
- Integrated custom CMS layers, APIs, and third-party services while maintaining performance and security standards.
- Supported delivery workflows with Git, GCP, Netlify, and pragmatic DevOps practices.

Freelance Web Developer & Designer — Self-employed

Remote | Mar 2018 – Present

- Delivered high-impact client websites, e-commerce platforms, and tailored digital experiences from discovery through launch.
- Built custom WordPress themes, plugins, and REST/GraphQL integrations for varied business needs.
- Applied performance techniques including code-splitting, lazy loading, and caching to improve real-world results.
- Combined UI/UX thinking with Figma-based design direction and product consultation.

Education

Bachelor of Fine Arts, *Graphic Design* — Eugeniusz Geppert Academy of Fine Arts (Jun 2015 – Jun 2018)
